

# PENTOFROST ANTIFREEZE COVERS OVER 97% OF ASIAN VEHICLES.

Our Pentofrost line of Asian antifreeze is free of silicate, borate, nitrate, or amine containing additives, making them the ideal antifreeze for Asian vehicles. Plus, they contain phosphates and organic salts to protect all materials used within the cooling system.

Now with Pentofrost A1 (red), Pentofrost A2 (green), Pentofrost A3 (blue), and Pentofrost A4 (pink), Pentosin antifreeze covers over 97% of all Asian vehicles in the market.
