INTRODUCING PENTOSIN PENTOSPEED 0W-20 MOTOR OIL

NEW!

Over time, engine oil breaks down and wears out. When it does, it becomes less effective at lubricating the engine and absorbing heat. Changing your motor oil fluid is one of the most important parts of routine maintenance. The use of low friction, fully synthetic oils can help increase engine efficiency and provide fuel efficiency by decreasing engine friction. CRP Automotive offers a super high performance, high fuel-economy oil specifically for this service.

Pentospeed 0W-20 is an advanced, SAE all-season engine oil specially formulated for gasoline engines to provide exceptional fuel efficiency. Smooth cold start behavior, protects against engine sludge and fast engine lubrication are some of the many advantages Pentospeed 0W-20 offers. It also help protect critical engine parts across a broad range of temperatures.

About PENTOSPEED 0W-20:

- Color: Amber & Clear
- Synthetic motor oil for Asian applications,
- Over 29 million VIO
- Meets API specs: SN and ILSAC GF-5
