1 Identification

- Product identifier
- Trade name: Pentofrost SF
- Recommended use and restriction on use
  - Recommended use: Coolant / Anti-freeze.
  - Restrictions on use: Contact manufacturer/supplier

- Details of the supplier of the Safety Data Sheet
  - Manufacturer/Supplier:
    CRP Industries
    35 Commerce Dr.
    Cranbury, NJ 08512
    (609) 578-4100
    info@crpindustries.com
  - Emergency telephone number:
    ChemTel Inc.
    (800)255-3924, +1 (813)248-0585

2 Hazard(s) identification

- Classification of the substance or mixture
  Acute Tox. 4  H302  Harmful if swallowed.
  STOT RE 2  H373  May cause damage to the kidneys through prolonged or repeated exposure. Route of exposure: Oral.

- Label elements
  - GHS label elements
    The product is classified and labeled according to the Globally Harmonized System (GHS).
  - Hazard pictograms:
    GHS07  GHS08

- Signal word: Warning

- Hazard statements:
  H302  Harmful if swallowed.
  H373  May cause damage to the kidneys through prolonged or repeated exposure. Route of exposure: Oral.

- Precautionary statements:
  P260  Do not breathe mist/vapors/spray.
  P264  Wash thoroughly after handling.
  P270  Do not eat, drink or smoke when using this product.
  P301+P312  IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.
  P314  Get medical advice/attention if you feel unwell.
  P330  Rinse mouth.
  P501  Dispose of contents/container in accordance with local/regional/national/international regulations.

(Cont'd. on page 2)
Trade name: Pentofrost SF

3 Composition/information on ingredients

Chemical characterization: Mixtures

Components:

<table>

<tr>
<td>1310-73-2 sodium hydroxide</td>
<td>0.1-&lt;0.5%</td>
<td>1</td>
<td>1</td>
<td>0</td>
</tr>
</tbody>
</table>

Additional information: For the wording of the listed Hazard Statements refer to section 16.

4 First-aid measures

Description of first aid measures

General information:
Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

After inhalation: Supply fresh air; consult doctor in case of complaints.

After skin contact:
Immediately wash with water and soap and rinse thoroughly. If skin irritation continues, consult a doctor.

After eye contact:
Remove contact lenses if worn. Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

After swallowing:
Rinse out mouth and then drink plenty of water. Do not induce vomiting; immediately call for medical help.

Most important symptoms and effects, both acute and delayed:

Headache
Cramp
Thirst
Dizziness
Nausea
Acidosis
Disorientation

(Cont'd. on page 3)
Danger:
Harmful if swallowed.
May cause damage to the kidneys through prolonged or repeated exposure. Route of exposure: Oral.

Indication of any immediate medical attention and special treatment needed:
Contains ethylene glycol. Consult literature for specific antidotes.
Medical supervision for at least 48 hours.

5 Fire-fighting measures

Extinguishing media

Suitable extinguishing agents: Use fire fighting measures that suit the environment.
For safety reasons unsuitable extinguishing agents: None.

Special hazards arising from the substance or mixture
Formation of toxic gases is possible during heating or in case of fire.

Advice for firefighters

Protective equipment:
Wear self-contained respiratory protective device.
Wear fully protective suit.

Additional information:
Cool endangered receptacles with water spray.
No relevant information available.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures
Use respiratory protective device against the effects of fumes/dust/aerosol.
Wear protective equipment. Keep unprotected persons away.
Ensure adequate ventilation.

Environmental precautions
Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

Methods and material for containment and cleaning up
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
Send for recovery or disposal in suitable receptacles.
Dispose contaminated material as waste according to item 13.

Reference to other sections
See Section 7 for information on safe handling.
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.
7 Handling and storage

· Handling
  · Precautions for safe handling:
    Use only in well ventilated areas.
    Prevent formation of aerosols.
    Avoid splashes or spray in enclosed areas.
  · Information about protection against explosions and fires: No special measures required.

· Conditions for safe storage, including any incompatibilities

· Storage
  · Requirements to be met by storerooms and receptacles: No special requirements.
  · Information about storage in one common storage facility:
    Store away from foodstuffs.
    Store away from oxidizing agents.
  · Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles.

Specific end use(s) No relevant information available.

8 Exposure controls/personal protection

· Control parameters

Components with limit values that require monitoring at the workplace:

(Cont'd. on page 5)
• Exposure controls
• Personal protective equipment:
  • General protective and hygienic measures:
    The usual precautionary measures for handling chemicals should be followed. Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.
  • Engineering controls: Provide adequate ventilation.
• Breathing equipment:
  Not required under normal conditions of use. Use suitable respiratory protective device when aerosol or mist is formed. For spills, respiratory protection may be advisable. NIOSH or EN approved organic vapor respirator equipped with a dust/mist prefilter should be used.
• Protection of hands:
  Gloves not required under normal conditions of use. Wear protective gloves to handle contents of damaged or leaking units. The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation
• Material of gloves
  The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.
• Penetration time of glove material
  The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
• For the permanent contact gloves made of the following materials are suitable:
  Butyl rubber, BR
  Neoprene gloves
  Nitrile rubber, NBR
• Eye protection:
  Safety glasses
  Follow relevant national guidelines concerning the use of protective eyewear.
• Body protection:
  Not required under normal conditions of use. Protection may be required for spills.
• Limitation and supervision of exposure into the environment
  No relevant information available.
• Risk management measures
  See Section 7 for additional information.
9 Physical and chemical properties

10 Stability and reactivity

| Reactivity: No relevant information available.       |
| Chemical stability:                                 |
| Thermal decomposition / conditions to be avoided:   |
| No decomposition if used and stored according to specifications. |
11 Toxicological information

- Information on toxicological effects
  - Acute toxicity:
    - LD/LC50 values that are relevant for classification:
      | 107-21-1 ethylene glycol |
      | Oral LD50 5840 mg/kg (rat) |
      | Dermal LD50 9530 mg/kg (rabbit) |
  - Primary irritant effect:
    - On the skin: Slight irritant effect on skin and mucous membranes.
    - On the eye: Based on available data, the classification criteria are not met.
    - Sensitization: No sensitizing effects known.
  - IARC (International Agency for Research on Cancer):
    None of the ingredients are listed.
  - NTP (National Toxicology Program):
    None of the ingredients are listed.
  - OSHA-Ca (Occupational Safety & Health Administration):
    None of the ingredients are listed.
  - Probable route(s) of exposure:
    Ingestion.
    Inhalation.
    Eye contact.
    Skin contact.
  - Acute effects (acute toxicity, irritation and corrosivity): Harmful if swallowed.
  - Repeated dose toxicity:
    May cause damage to the kidneys through prolonged or repeated exposure. Route of exposure: Oral.
  - CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)
    - Germ cell mutagenicity: Based on available data, the classification criteria are not met.
    - Carcinogenicity: Based on available data, the classification criteria are not met.
    - Reproductive toxicity: Based on available data, the classification criteria are not met.
    - STOT-single exposure: Based on available data, the classification criteria are not met.
    - STOT-repeated exposure:
      May cause damage to the kidneys through prolonged or repeated exposure. Route of exposure: Oral.
  - Aspiration hazard: Based on available data, the classification criteria are not met.
12 Ecological information

- **Toxicity**
  - Aquatic toxicity: No relevant information available.
- **Persistence and degradability**
  - Moderately /partly biodegradable
- **Bioaccumulative potential**: Does not accumulate in organisms
- **Mobility in soil**: No relevant information available.
- **Additional ecological information**
  - General notes:
    Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
- **Results of PBT and vPvB assessment**
  - PBT: Not applicable.
  - vPvB: Not applicable.
- **Other adverse effects**
  - No relevant information available.

13 Disposal considerations

- **Waste treatment methods**
  - Recommendation:
    Contact waste processors for recycling information.
  - The user of this material has the responsibility to dispose of unused material, residues and containers in compliance with all relevant local, state and federal laws and regulations regarding treatment, storage and disposal for hazardous and nonhazardous wastes.
- **Uncleaned packagings**
  - Recommendation: Disposal must be made according to official regulations.
  - Recommended cleansing agent: Water, if necessary with cleansing agents.

14 Transport information

- **UN-Number**
  - DOT, ADR, IMDG, IATA: Not regulated.
- **UN proper shipping name**
  - DOT, ADR, IMDG, IATA: Not regulated.
- **Transport hazard class(es)**
  - DOT, ADR, IMDG, IATA
    - Class: Not regulated.
- **Packing group**
  - DOT, ADR, IMDG, IATA: Not regulated.
- **Environmental hazards**
  - Marine pollutant: No
### Safety Data Sheet

acc. to OSHA HCS (29 CFR 1910.1200) and WHMIS 2015 regulations

Printing date: 12/13/2016  
Revision: 12/13/2016  
Trade name: Pentofrost SF

(Cont'd. of page 8)

#### 15 Regulatory information

- **Special precautions for user**: Not applicable.
- **Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**: Not applicable.
