CRP Automotive Introduces Environmentally Friendly Pentofrost E Antifreeze for Multipurpose Applications in Water-Cooled Engines

-Meets OE specifications for Audi, Volkswagen, Bentley, and Lamborghini -

Cranbury, NJ... CRP Automotive, a leading source of OE-quality replacement parts for Asian and European import vehicle applications, has introduced Pentofrost E, a multipurpose antifreeze concentrate that is produced through an environmentally friendly process. Delivering the same exceptional performance as Pentofrost ++, Pentofrost E meets the OE specifications of Audi/Volkswagen TL 774 J and is approved for Bentley and Lamborghini vehicles.

Pentofrost E is approved for Audi/Volkswagen 2006 and up. It can also be used where VW G12++ or G13 is required. Pentofrost E meets ASTM D-3306 and is offered in 1.5L and 5L sizes.

Pentofrost E uses an environmentally friendly manufacturing process, which features the addition of glycerin to its glycol base. Its formula contains no nitrites, phosphates, amines, or phosphorous containing additives. Pentofrost E protects all material used in cooling systems and is recommended for non-ferrous metals and year round use.

According to Mark Malone, Pentosin Brand Manager, "Unlike commodity fluids for general application, Pentosin technical fluids are formulated to match OE specifications for specific performance, dilution, and color." All Pentosin products are backed by the CRP Automotive standard of excellence. For more information, visit: www.pentosin.net

About Pentosin: Deutsche Pentosin Werke GmbH (Pentosin) is a leading innovator and manufacturer of high-tech automotive fluids that are approved and recommended for use as both initial fill (OEM) and service refill by over twenty-five international automotive manufacturers. CRP has been Pentosin's NAFTA market partner since 1983, handling all sales and service activities in the United States, Canada, and Mexico. The Pentosin program includes antifreeze, brake fluid, central hydraulic/power steering fluid, motor oil, and transmission fluid.

About CRP Automotive

CRP Automotive is a part of CRP Industries, a leader in the marketing and supply of automotive

parts and industrial products. CRP Automotive provides some of the industry's leading brand names, including ContiTech Automotive Belts, Rein[®] Automotive Parts and Accessories, Pentosin Technical Fluids, and AJUSA Engine Parts. All products are backed by the CRP promise of quality and superior service. Founded in 1954 as the North American partner of Continental AG, CRP Automotive has established a solid reputation for exceeding its customers' expectations. CRP maintains key distribution centers in New Jersey, California, Canada, and Mexico.
