SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: PENTOSIN DOT 4LV

TRADE NAME: PENTOSIN DOT 4LV

GENERAL USE: Automotive Brake Fluid

CHEMICAL FAMILY: Glycolethers, Glycolether amines and Inhibitors.

PRODUCT DESCRIPTION: Yellow liquid with characteristic odor.

MANUFACTURED FOR:

CRP Industries

TELEPHONE NUMBER (General Inquiries) 609-578-4100

ADDRESS (NUMBER, STREET, P.O. BOX) 35 Commerce Drive

(CITY, STATE AND ZIP CODE) Cranbury NJ 08512

COUNTRY USA

EFFECTIVE DATE: January 11, 2011

DATE OF EXPIRATION: January 10, 2014

SUPERSEDES DATE: New Issue

SECTION 2 - HAZARDS IDENTIFICATION

OSHA HAZARDS: Target Organ Toxicity (Kidneys, Liver). WHMIS Hazard Classes: D2B - Other Toxic Effects (Irritation).

Warning! May cause respiratory tract irritation. Hygroscopic (absorbs moisture from the air). The toxicological properties of this material have not been fully investigated. Causes eye irritation. Causes digestive and respiratory tract irritation.

USA (DOT) CANADA (WHMIS) SYMBOL(S) GHS HAZARD SYMBOLS

None

CHEMICAL FAMILY: Glycolethers, Glycolether amines and Inhibitors.

HMIS HAZARD RATINGS

0 = INSIGNIFICANT, 1 = SLIGHT, 2 = MODERATE
3 = HIGH, 4 = EXTREME
* - CHRONIC HEALTH HAZARD

HEALTH: 1
FLAMMABILITY: 0
PHYSICAL HAZARD: 0

REQUIRED PERSONAL PROTECTIVE EQUIPMENT:

HMIS PERSONAL PROTECTIVE EQUIPMENT LETTER: A

WEAR SAFETY GLASSES. SEE SECTION 8 FOR FULL DETAILS ON PERSONAL PROTECTIVE EQUIPMENT.

POTENTIAL HEALTH EFFECTS

ACUTE EXPOSURE EFFECTS

INHALATION:
Headache, nausea, dizziness, and irritation of the respiratory tract may occur from inhalation of product mists, especially with prolonged exposure.

SKIN:
Irritation and itching may occur and prolonged contact may cause dermatitis. The problem may be exacerbated by liquid becoming trapped against the skin by contaminated clothing and shoes; skin absorption can occur in these cases.

EYES:
Tearing, redness and pain may occur; chemical conjunctivitis may result, especially in cases where the eyes are not promptly rinsed.

INGESTION:
Ingestion may result in nausea, vomiting, headache, dizziness, and gastrointestinal irritation; kidney and liver damage may result. Vomiting and subsequent aspiration into the lungs may lead to pneumonitis.

CHRONIC EXPOSURE EFFECTS

Dermatitis may occur from chronic or prolonged skin exposure. Eye irritation will occur with chronic/prolonged eye exposure to product.

Carcinogenicity:

NTP? NO  IARC MONOGRAPHS? NO  OSHA REGULATED? NO
CALIFORNIA, Prop.65? NO  ESIS NOTATION? NO

NOTES: This Material Safety Data Sheet is prepared to comply with the United States Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (29 CFR 1910.1200) and the Canadian Workplace Hazardous Materials Information System (WHMIS). Hazard symbols and risk phrases are based on maximum listed concentration of each hazardous ingredient. Unlisted ingredients are not "hazardous" per the OSHA Hazard Communication Standard (29 CFR 1910.1200) or the Canadian Workplace Hazardous Materials Information System (WHMIS) and are considered trade secrets under relevant US and Canadian Federal Laws.

SECTION 4 - FIRST AID MEASURES

INGESTION:
Contact medical authorities immediately. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs naturally, have victim lean forward to avoid aspiration of regurgitant. Give 1-2 glasses of water to victim if victim is conscious and able to swallow and seek immediate medical assistance. Never give anything by mouth to an unconscious person.

EYES:
Rinse eyes with cool potable water for 5 minutes, then remove contact lenses if present. Wash for at least 10 more minutes with cool potable water lifting upper and lower lids occasionally. Seek medical attention if irritation persists.

SKIN:
Wash contact areas with soap and water. If product is injected into or under the skin, or into any part of the body, regardless of the appearance of the wound or its size, the individual should be evaluated immediately by a physician as a surgical emergency. Even though initial symptoms from high pressure injection may be minimal or absent, early surgical treatment within the first few hours may significantly reduce the ultimate extent of injury. If heated product causes burns, seek medical assistance.

INHALATION:
Remove from further exposure. For those providing assistance, avoid exposure to yourself or others. Use adequate respiratory protection. If respiratory irritation, dizziness, nausea, or unconsciousness occurs, seek immediate medical assistance. If breathing has stopped, use mouth-to-mouth resuscitation.

SECTION 5 - FIRE FIGHTING MEASURES

DATA RELATED TO FIRE:
FLASH POINT: 266°F / 130°C
AUTO-IGNITION TEMPERATURE: >200°C, >392°F
FLAMMABLE/EXPLOSIVE LIMITS: LOWER: NE  UPPER: NE
SENSITIVITY TO MECHANICAL IMPACT/STATIC DISCHARGE: None

GENERAL HAZARDS:
Product is combustible at elevated temperatures. Irritating and/or harmful vapors may be emitted under fire conditions.

SUITABLE EXTINGUISHING MEDIA:
CO2, Dry Chemical, or water spray.

UNSUITABLE EXTINGUISHING MEDIA:
Choose extinguishing media with respect to total fire hazard; all media forms are acceptable with this product.

FIRE FIGHTING PROCEDURES:
Prevent product runoff from fire control or dilution from entering streams, sewers, or drinking water supply. Firefighters should use protective equipment and self-contained breathing apparatus (SCBA), and should fire based on total fire hazards. Use of water spray or fog to cool fire exposed surfaces and prevent the rupture of containers is acceptable if runoff control is implemented.

UNUSUAL FIRE AND EXPLOSION HAZARDS:
Product containers will rupture and leak from heat; released product will pose a slip and fall hazard to fire-fighting personnel. Use water spray or fog to cool fire-exposed containers where runoff control is implemented.

HAZARDOUS COMBUSTION PRODUCTS:
Carbon monoxide and dioxide, oxides of nitrogen, hydrocarbon compounds, smoke, soot, fumes, nitrogen oxides
**PRODUCT NAME:** PENTOSIN DOT 4LV

**SECTION 6 - ACCIDENTAL RELEASE MEASURES**

**STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:**
Stop leak if you can do it without risk. Small Spills: Absorb with earth, sand or other noncombustible material and transfer to containers for later disposal. Recover by pumping with suitable absorbent. Large Spills: Prepare earthen or manufactured dikes ahead of spill; prevent discharge or entry into bodies of water, sewers, basements or confined areas. For large spills or spills on water, contact local authorities and the National Response Center toll-free at (800)424-8802.

**SECTION 7 - HANDLING AND STORAGE**

**PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE:**

**Handling:** Prevent small spills and leakage to avoid slip hazard. Wear personal protective equipment. Keep containers tightly closed. Do not store with incompatible materials (water-reactive, glycol-reactive). KEEP OUT OF THE REACH OF CHILDREN.

**Storage:** Do not store in open or unlabelled containers.

**SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION**

**PERSONAL PROTECTION**

**RESPIRATORY PROTECTION:**
Not required for normal work situations where adequate ventilation is provided. Use NIOSH European EN-149 approved self contained, positive pressure respirators or Self-Contained Breathing Apparatus (SCBA) for emergencies and in situations where air may be displaced by vapors. Follow OSHA Std. 29CFR 1910.134.

**PROTECTIVE GLOVES:**
Use gloves if there is prolonged or repeated contact of liquid with skin. Solvex gloves recommended.

**EYE PROTECTION:**
Safety glasses with side shields required.

**ENGINEERING CONTROLS:**
Eyewash fountain or emergency eyewash bottle should be present in work area. Personal protective clothing and use of equipment must be in accordance with 29CFR 1910.132 and 29CFR 1910.133.

**WORK / HYGIENIC PRACTICES:**
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practice good housekeeping.

NOTES: None

SECTION 10 - STABILITY AND REACTIVITY

STABILITY
Stable under normal conditions.

HAZARDOUS POLYMERIZATION:
Will not occur.

HAZARDOUS DECOMPOSITION OR BYPRODUCTS:
Carbon monoxide and dioxide, hydrocarbon compounds, smoke, soot, fumes, nitrogen oxides - fire conditions only.

CONDITIONS TO AVOID:
Excessive heat. High energy sources of ignition.

SECTION 11 - TOXICOLOGICAL INFORMATION

Complete Product

Oral LD₅₀
Not Known, Low >5000mg/kg estimate.

Dermal LD₅₀
Not Known but capable of producing dermal irritation.

Inhalation LC₅₀
Not known

Irritation / Sensitization
Moderate irritant to eyes; possible irritant to skin and respiratory tract.

Carcinogenicity
No ingredients have been identified by IARC, NTP, OSHA, or ECHA to be carcinogens.

Mutagenicity
Not Known

Reproductive Toxicity
Not Known

Teratogenicity
Not Known

SECTION 12 - ECOLOGICAL INFORMATION

Low to moderate toxicity is expected to aquatic and terrestrial organisms. There is limited information available on environmental fate and effects. Due caution should be exercised to avoid the accidental release of this material to aquatic and terrestrial environments. This mixture is not expected to bioconcentrate in significant amounts. Terrestrial: Highly mobile in soil. Aquatic: Not expected to adsorb into sediment or volatilize. Biodegradation an important fate for these conditions. Atmospheric: Remains in the vapor phase and is degraded by photochemically produced hydroxyl radicals. Low probability of bioconcentration.

SECTION 13 - DISPOSAL CONSIDERATIONS

Recycling of used/waste product is preferable to simple disposal. Product is suitable for supervised incineration at very high temperatures to prevent formation of undesirable combustion products. End user bears the responsibility to discard unused or waste product in accordance with local, state, and federal laws and regulations.

Note: Transportation information provided is for reference only. Client is urged to consult CFR 49 parts 100 - 177, IMDG, IATA, EU, United Nations TDG, and WHMIS (Canada) TDG information manuals for detailed regulations and exceptions covering specific container sizes, packaging materials and methods of shipping.

## SECTION 15 - REGULATORY INFORMATION

| ACGIH | American Congress of Government Industrial Hygienists |
| CAS | Chemical Abstracts Service |
| EINECS | European Inventory of Existing Commercial Chemical Substances |
| HMIS | Hazardous Materials Identification System |
| IARC | International Agency for Research on Cancer |
| NA | Not Available |
| NE | Not Established |
| NIOSH | National Institute for Occupational Safety and Health |
| NTP | National Toxicology Program |
| OSHA | Occupational Safety and Health Administration |

**Components listed under sections 4 and 8(b).**

| TSCA (USA - Toxic Substance Control Act): | Components listed under sections 4 and 8(b). |
| SARA TITLE III (USA - Superfund Amendments and Reauthorization Act): | Acute Health: YES Chronic Health: NO |
| Fire: | NO |
| React: | NO |

**SARA 313 REPORTABLE INGREDIENTS:** This material contains 2-(2-Methoxyethoxy)ethanol (listed as Glycol ethers), <2.5%, (CAS# 111-77-3) which is subject to the reporting requirements of Section 313 of SARA Title III and 40 CFR Part 373.

**EPCRA (Emergency Planning and Community Right-to-Know Act):** This material contains no extremely hazardous substances.

**CERCLA (USA - Comprehensive Response Compensation and Liability Act):** None listed.

**Clean Water Act (CWA):** No listings as Hazardous Substances, Priority Pollutants, or Toxic Pollutants under the CWA.

**Clean Air Act (CAA):** CAS# 111-77-3 (listed as Glycol ethers (except for EGBE)) is listed as a hazardous air pollutant (HAP). California Prop 65, Safe Drinking Water and Toxic Enforcement Act of 1986: No components listed.

**State Right to Know Laws:** Components CAS# (143-22-6) is listed in the Right to Know Acts of NJ, PA, CAS#111-77-3 is listed in MA, NJ, PA.

**CPR (Canadian Controlled Products Regulations):** This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all of the information required by those regulations.

**WHMIS Class:** D2B: Materials causing other toxic effects.

**IDL (Canadian Ingredient Disclosure List):** CAS#111-77-3 is listed.

**DSL / NDSL:** (Canadian Domestic Substances List / Non-Domestic Substances List): Listed on DSL.
